

GAYPU Group establishes its Quality and Environmental Policy within the framework of the following activities, which are developed in its production centers.

Metálicas Gaypu: Metallurgical services of transformation of metal sheets, cutting and bending of tube, welding, hydraulic & electrical assembly and painting.

UP Lifting: design, manufacture, marketing and technical assistance teams for maintenance and elevation both for civil and military use.

The Quality and Environmental Policy of **GAYPU Group** is based on the following general principles which guide the company towards improvement in the manufacturing process and provision of services as well as in the control of residues generated by such activity, emissions and raw material consumption all of which lead to a future of sustainable development:

- Commitment to efficiently control all the processes: these include the quality of our products and services, and our relationship with our clients down to the control of residue.
- Responsibility to comply with all requirements, whether legal, contractual or of another character which are applicable both to our activity and the sphere of processes and environmental management, so that no action of **GAYPU Group** breaches any of the requirements or specifications set down by the relevant bodies.
- Adoption of commitment on the prevention of contamination and reduction of impact on the environment, managing all operations and processes which could affect the surrounding world and come from the activities generated by **GAYPU Group**. We seek to promote sustainable development and a culture which supports the environment.
- Obligation to frame our management within the context of continuous improvement, in internal processes as well as in methods of working and relationships with suppliers and clients, controlling all by periodic revision and analysis of the quality and environmental system.
- Commitment to promote within the organization our policy of quality and environmental management by communication and continuous training of our employees.

By applying the Quality and Environmental Policy to every area of **GAYPU Group** we will achieve maximum quality in our products.

All employees are directly responsible for Quality in their daily work. Therefore, all have to be aware that their collaboration is essential for the attainment of the annual objectives regarding Quality and the Environment and thus comply with the requirements and specifications of the Standards UNE-EN ISO 9001:2008, UNE-EN ISO 14001:2004 and PECAL/AQAP-2110.

The Management System for Quality and the Environment is defined in the Manual of Integrated Management System and the procedures to which it alludes, along with what it tries to define, systemize and control all the phases or activities related to the quality of our product.

Annually, the Management of **GAYPU Group** will establish Objectives of Quality and the Environment with a view to guaranteeing the efficacy of the Management System for Quality and the Environment in keeping with the commitment to fulfil the requirements and improving it.

This Policy is periodically reviewed by the Management and is available to the general public.

Huesca , 16th February 2015

Roberto Garzo Aguarta
Managing Director of **GAYPU Group**
